Multiple Board governance trainings through the SCPCSA and NPCSA

Board Experience:

Founding Board Member of Camp RISE Above (2010-2015); Founding Board Chairman of Oceanside Collegiate Academy (2016-2022)

Why do you want to serve on the Oceanside Collegiate Academy Board of Directors?

I have been on this journey with OCA since the very beginning in 2015, as Founding Board member and Board Chairman. Despite the various challenges over the last 7 years, we have accomplished what many doubted could ever be accomplished and we have become a catalyst for change in our state. The purpose for my running for the OCA Board again comes from my desire to help OCA continue to move forward guarding the culture, mission and vision to help our students get to the next level.

How do you hope to advance the mission of OCA by serving on the board?

Our first responsibility is to focus on rigorous academics and students earning up to two years of free college credits. Athletics is an integral part of the educational experience at OCA. As an extension of the classroom, participation in sports provides an opportunity to develop self-discipline, leadership skills, and loyalty to school, and the community. Our teachers, coaches, and administration will continue along all possible paths to help our students get noticed at the next level, whether athletics, college, military or the workforce.

What do you see as your greatest strengths, and what positive additions can you bring to this board?

I am a caring, committed, determined, and shark-like advocate for OCA!

Please provide one example of something you feel OCA is doing well. Also, what do you consider to be the most important issue for the school to focus on in the immediate future?

I feel that one of our biggest assets are our staff, including our administration, teachers, coaches and support personnel. They are some of the most engaged and dedicated individuals I have ever been involved with. We should be proud of the job they are doing.

2022 Board Candidate

Arnsdorff

Our most important upcoming challenge is the transfer from our current authorizer to Limestone Charter Association, which is moving along. My focus, if re-elected, is to get us over the goal line by July 1, 2022! Of equal importance is our second phase of our athletic complex.

I am confident that my unique mix of entrepreneurial real-world experiences, and my passion to accomplish the above for the Landshark family, will again prove to be very beneficial as a Board of Directors Member for OCA. It would be an honor to serve again and I appreciate your consideration towards the opportunity to serve.

Why do you want to serve on the Oceanside Collegiate Academy Board of Directors?

Our family has been part of the Oceanside family since day one of the school opening in 2016 in McClellanville. My oldest daughter, Kayla (2020), was an original Landshark, graduated with 36 college credits, won 3 State Golf Championships at OCA, and is playing Division I Golf at UNC Charlotte. My youngest daughter, Addison (2025), is a freshman and a member of the 2021 State Champion Girls Swim Team and is very successful academically so far at OCA. I also have a niece, Jordan (2021), who graduated OCA with honors and is playing volleyball at the University of Lynchburg. I believe in the concept that OCA is trying to accomplish in offering students high academic standards and elite athletics, while providing the opportunity to earn up to two years of college credits. In 2016 and 2017 I was the volunteer coach for the girls and boys golf teams. I have been a volunteer for the football team and have been running the game clock for every home game since 2017. I want to be on the board because I am very passionate about the OCA Mission. Some great accomplishments have been achieved in OCA's short existence but I feel that some changes are needed to take OCA to the next level not only academically, but athletically. New and fresh ideas would benefit the OCA Board and all Landshark families.

How do you hope to advance the mission of OCA by serving on the board?

Oceanside Collegiate Academy (OCA) serves high school students in a safe, small, and family-like setting, who seek the opportunity and challenge of a rigorous curriculum, high academic standards, and elite athletics while earning up to two years of college credit. I hope to advance this mission by assisting OCA become independent from Pinnacle and help transition OCA to be lead run from within. By doing so, it will add a significant amount of cash to the bottom line and may allow for new initiatives such as additional academic programs, offer incentives and benefits to help retain faculty and staff members, and provide world class facilities for our Student Athletes.

What do you see as your greatest strengths, and what positive additions can you bring to this board?

My greatest strengths are I am super competitive, relentless, and have great business acumen. I attended Benet Academy in Lisle, IL, which is one of the best high schools in the nation academically and

2022 Board Candidate

Bartemeyer

athletically. In high school, I was All-State in Football, Basketball and Baseball and went on to play college football at the Division II level at West Virginia Wesleyan College. I was fortunate enough to have been selected to play in the Division II All-Star Game in 1998 as the #2 ranked WR in the country. I was able to play football at a high level and also double major in Computer Science and Business Administration. The lessons I learned from being a student athlete in college has carried over into my career and has helped me have a very successful career in sales in the Medical Device industry. I have managed multimillion dollar territories for the past 20 years and have trained numerous sales representatives who have gone on to be very successful. I have a strong understanding of what it takes to balance being successful on the field and in the classroom. I have the mindset that aligns perfect with the mission of OCA.

Please provide one example of something you feel OCA is doing well. Also, what do you consider to be the most important issue for the school to focus on in the immediate future?

Oceanside Collegiate Academy has established itself as one of the top academic and athletic schools in the Charleston area. I believe the most important issue for the school board to focus on immediately is to start the process of establishing the structure to eliminate Pinnacle and administer OCA from within which would save thousands of dollars every year that could be spent on school initiatives and improvements. We are thankful for the guidance Pinnacle has provided but they have been more than adequately compensated for their service. Pinnacle, in my opinion, is a startup consultant which is only necessary short term until the business is able to be run independently from within. OCA is ready to be independent if the board wants to put in the time to make it happen. Other issues are...The OCA school board should be 100% fiscally responsible. The OCA board should also have a collaborative relationship with staff and the community and establish a strong communications structure to inform and engage both the internal and external OCA Community. The OCA Board needs to be diligent in making sure all funds the school receives are maximized and utilized to ensure the students have the best staff, academic programs, and athletic facilities not only in the Low Country, but South Carolina.

Why do you want to serve on the Oceanside Collegiate Academy Board of Directors?

Over the last four years, I've seen first hand the amazing positive impact that Oceanside has had on their students and our community. I currently have a daughter that is a senior, and a son that will be entering OCA as a freshmen this fall. After all that Oceanside has meant to my family, I want to give back. I feel the most impactful way to do this, is to serve on the OCA Board of Directors. My goals will center around continuing to uphold the structure and values that has made OCA what is today!

How do you hope to advance the mission of OCA by serving on the board?

I will apply my experience and perspective to help OCA achieve it's goals. I feel the most important part to this question is understanding what the OCA mission is. I've been around and involved at Oceanside long enough to understand what they are. I will not be a passive member, but one that is engaged and take this enormous responsibility of advancing our mission extremely seriously.

What do you see as your greatest strengths, and what positive additions can you bring to this board?

My passion and love for OCA will be my driving force to be the best board member I can be. I will always put the best interest of the school, academics, culture and most importantly the students first. As successful as Oceanside has been, If I have the opportunity to serve on the board, my focus won't be to "rest on our laurels", but to continue to strive to achieve even new heights. In other words, make OCA the "Model" of what a charter school should look like.

Please provide one example of something you feel OCA is doing well. Also, what do you consider to be the most important issue for the school to focus on in the immediate future?

Among many things, Oceanside has maintained high academic standards, amazing athletic success, and a wonderful family centered culture. One of the most important issues I feel Oceanside should focus on in the future is it's brand. With all of our success, OCA should continue to strive as the example of what the "Model" charter school should look like in the state and nationally. Additionally, I feel there is more

Feinzig

work to be done to help increase the communication between the board, parents and staff. This will help ensure that everyone understands key issues facing our school, and help bring all parties together.

Board Experience:

Vice President of the Black & Blue Booster Club, under 1 year

Why do you want to serve on the Oceanside Collegiate Academy Board of Directors?

I believe in the mission of OCA - it's a safe, small, family-centered environment who seek the opportunity and challenge of a rigorous curriculum. I have a genuine interest in supporting and improving the quality of the school, as I have a current sophomore and an upcoming student. OCA has such a unique education & athletic model, that I want the school to continue to thrive with the best representation possible.

How do you hope to advance the mission of OCA by serving on the board?

My goal is to work in collaboration with the school board, driving towards the common goal of bringing a top notch education program and elite athletic program for our students. I am a highly motivated and dedicated parent looking to help make a difference at OCA.

What do you see as your greatest strengths, and what positive additions can you bring to this board?

I have strong marketing and communication skills, as well as a strong knowledge base of sports nutrition and sports strength and conditioning.

Please provide one example of something you feel OCA is doing well. Also, what do you consider to be the most important issue for the school to focus on in the immediate future?

Our athletic program's rankings are a prime example of how OCA is excelling. Per MaxPrep, OCA's athletic program is ranked #45 in the Nation, and #1 in the SC public schools. Our mission for having an elite athletic program is by far shown with these rankings!

I believe the school board should continue to push towards a smooth transition with Limestone Charter. I believe that we need to regain and build the confidence of our parents and students with a strong relationship and educational program with Limestone Charter given our 2021 Erskine separation.

George Washington University, Masters of Forensic Science

Board Experience:

Safety Officer - Swim Across America 2021-Present

Why do you want to serve on the Oceanside Collegiate Academy Board of Directors?

As a parent of soon to be two students who attend OCA, I want to ensure the success of the school. OCA provides the students with a great education, allowing them to gain up to 2 years of college credits while in high school. As a coach of an OCA sport, I want to represent OCA athletics on the Board to ensure athletics continue to be at the highest level of programs in the nation!

How do you hope to advance the mission of OCA by serving on the board?

As a proponent of school choice, I believe that OCA provides the students with an alternative educational experience that prepares them for college. Being a parent, coach, and substitute teacher has shown me how this type of education is beneficial versus the standard all-day education. Additionally, the family-like environment is present at the school due to it's size and I would like to continue to foster that.

What do you see as your greatest strengths, and what positive additions can you bring to this board?

The greatest strength Oceanside has is it's staff and their dedication to the students. Staff members are engaged and strive to see the students excel in all areas, including education, sports and socially. As a coach and substitute at OCA, I can provide an insider's view into the day-to-day happenings at the school that can not be provided from the outside.

Please provide one example of something you feel OCA is doing well. Also, what do you consider to be the most important issue for the school to focus on in the immediate future?

The school does a great job preparing our students for college, while easing some of the financial burden on parents by affording the students the opportunity to obtain 2 years of college credits. I would like to work with the school and the board to expand the course offerings through Trident College to allow for more choice in classes.

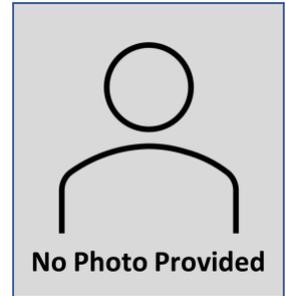

2022 Board Candidate

Zarzaca

Anthony Zarzaca

President at Perfetto Vita, Inc. (dba Benjamin Franklin Plumbing of Charleston)
Mount Pleasant, South Carolina
tzar58@verizon.net

Check all that apply:

College and Training:

Bloomsburg University of Pennsylvania, BS Business Admin / Marketing
I have been a successful entrepreneur or have held executive positions since 1995. All roles with organizational management and P&L responsibilities.

Board Experience:

As a proud alum, I served several years on the Athletic Fundraising Board for the Bloomsburg University Foundation before moving to SC.
My wife and I were the President and VP for Springford Youth Lacrosse club.

Why do you want to serve on the Oceanside Collegiate Academy Board of Directors?

I have been involved with OCA since 2017. When my wife of 23 years and I moved to Mt. Pleasant to purchase the local Benjamin Franklin Plumbing franchise in June 2017 just as the Faison road campus was nearing completion. With my oldest daughter graduating as salutatorian of the class of 2021, I have witnessed first hand what this institution has to offer our students. I am incredibly proud of our school, the vision of the future facilities and ever expanding academic offerings. Should I become a board member, I believe that I can leverage my 25+ years of entrepreneurial experience in the construction business, as well as my background with NPO fundraising to make a positive contribution toward addressing the challenges we face at OCA implementing capital expansion plans.

How do you hope to advance the mission of OCA by serving on the board?

From my perspective, the OCA mission as stated demands of its management, the ability to keep up with, and deliver an ever-evolving physical and academic environment. Just as we ask our students to strive to take full advantage of the unique aspects of the OCA model, we as the guiding force, are challenged to find unique ways to continue raising the standard. The continued development of our facilities and finding unique ways to accelerate and broaden our ability to transform conceptual plans into reality in the most fiscally responsible way is a specific expertise that I bring to the board. Academically, as our campus continues to renovate and expand, this fuels the ability to offer expansion of academic offerings in the form of a wider curriculum offering in better teaching and learning environments (labs, classroom technology, etc,,). Athletically, the effects of expedited facility upgrades are where we build connection with the community , where we offer our athletes and coaching staff the best chance for success.

2022 Board Candidate

Zarzaca

What do you see as your greatest strengths, and what positive additions can you bring to this board?

In the 20 years before I moved to SC to run my own company, I have been a member of the construction team on landmark projects throughout the world during my leadership tenures at Rotondo Weirich Enterprises, Lutron Electronics and Kay & Sons. I have been a part of academic projects at all levels of elementary, middle school, high school and collegiate facilities all over the country. I specialized in multiple integrated project deliveries and value engineering in coordination with design teams.

Please provide one example of something you feel OCA is doing well. Also, what do you consider to be the most important issue for the school to focus on in the immediate future?

This is an easy question... My daughter, Isabella Zarzaca, just graduated in June 2021 as salutatorian and transferred 52 credits into Clemson pre-med. We are offering our kids a unique HS experience unlike anything offered in a traditional PS setting. This is outstanding.

We have to give Ms. Brown and our outstanding faculty more to work with. Facilities drive student engagement. Facilities make faculty more efficient and effective. Facilities drives community involvement.
